CYRON B. MADUCDOC

Full Stack Developer

cyronmaducdoc2@gmail.com | 09613488566 | General Tinio, Nueva Ecija

PROFESSIONAL SUMMARY

Aspiring Full-Stack Developer and soon-to-be BSIT graduate with hands-on experience in web application development through academic projects. Familiar with PHP, Laravel, Python Flask, JavaScript, and MySQL, with knowledge of front-end development, database management, and system integration. Eager to apply technical skills, strengthen problem-solving abilities, and contribute to developing functional, user-friendly, and reliable software solutions while continuously learning and growing in the IT industry.

PROJECTS

Web-Based Enrollment and Student Management System for IEMELIF Learning Center

October 2026 – Present

Role: Lead Programmer / Full-Stack Developer
Technologies: PHP, Laravel, MySQL, JavaScript, HTML, CSS, Bootstrap, Git, GitHub, Docker, Railway

- Led the development of a web-based enrollment and student management system designed to streamline student registration, enrollment processing, student records management, and academic administration.
- Developed and integrated front-end interfaces and back-end functionalities using Laravel, PHP, JavaScript, and MySQL.
- Implemented core system workflows, including student enrollment, enrollment approval, payment options, partial and full payment processing, and student status tracking.
- Designed and managed relational database structures to maintain organized student information, enrollment records, academic data, and payment transactions.
- Developed role-based access and portal functionalities for administrators, registrars, teachers, students, cashiers, and finance personnel.
- Applied server-side validation, authentication, and access control to help protect sensitive student information and restrict access to authorized functions.
- Collaborated in system planning, requirements analysis, database design, testing, debugging, and feature integration.
- Used Git and GitHub for source control and Docker-based deployment workflows to prepare the application for hosting on Railway.

GENERAL TINIO NATIONAL HIGH SCHOOL SMART QUIZ SYSTEM

December 2025

Role: Lead Programmer / Full-Stack Developer
Technologies: HTML, CSS, JavaScript, Python, Flask, MySQL

- Led the development of a web-based quiz management system that enables teachers to manage quizzes and students to take assessments through a user-friendly interface.
- Developed front-end interfaces using HTML, CSS, and JavaScript, and implemented back-end functionality using Python Flask.
- Designed and integrated a MySQL database to store quiz questions, assessment data, and student results.
- Configured the application for local area network (LAN) access, allowing students connected to the same Wi-Fi router to access the quiz system hosted on a local computer.
- Assisted with network connectivity configuration, application testing, debugging, and system integration to support multiple users accessing the system over the local network.

EDUCATION

YEAR 2023-Present — **Bachelor of Science in Information Technology (BSIT)**
NEUST

YEAR 2017–2023 — **TVL-ICT Strand in Senior High School , SP-ICT in Junior High School**
GTNHS NE

YEAR 2010–2017 — **Elemtary Education**
Iemelif Learning center

TECHNICAL SKILLS

Front-End Development: HTML5, CSS3, JavaScript, TypeScript, React, Angular, Bootstrap, Tailwind CSS
Back-End Development: PHP, Laravel, Python, Flask, Java
Database Management: MySQL, SQL, Relational Database Design
CMS & Website Builders: WordPress, Joomla, Wix, Google Sites
Development Tools & Deployment: Git, GitHub, Visual Studio Code, XAMPP, WAMP, Docker, Railway, Render
Additional Technical Skills: REST API Integration, CRUD Operations, Responsive Web Design, Authentication, Database Integration, Debugging, Testing, and Version Control

CERTIFICATIONS

NATIONAL CERTIFICATE II in Computer Systems Servicing NC II

Issued by TESDA
Earned July 13,2023
